VOL. LII — MIDDLEBURY COLLEGE, MIDDLEBURY, VERMONT, SEPT. 20, 1956 — NO. 1

Chapel Attendance Set For New, More Flexible Basis

Requires Eight Of Sunday Services

Chapel services will operate on a more optional basis this year, according to Chaplain Charles Scott. Students must attend any eight of 16 Sunday chapel events during the semester, and sophomores and juniors can attend weekday chapel either Tuesday, Wednesday or Thursday. All freshmen will attend weekday chapel on Friday.

In addition to 13 regular Sunday chapel vesper services, Chaplain Scott has scheduled three Sunday evening chapel lectures which will give chapel attendance credit. They will be held at 7:30 Sunday evening October 14, December 9, and January 6.

Dr. E. W. Muehl, of the Yale faculty, will speak October 14. His subject will be the relation of Christianity and politics. On December 9 the speaker will be Dr. Edward J. Jurji, who is a Christian Arab. Dr. Jurji, who teaches Arabic studies at Princeton will speak on the relationship of the Hebrew-Christian tradition to other religions.

The third speaker will be Dr. Will Herberg, who was at Middlebury for the first religion conference in 1953. Dr. Herberg, formerly of the New School of Social Research, New York, is now the educational director of the International Ladies Garment Workers. His talk will be a theological critique of sociological method.

The usual dispensations for Sunday chapel will be made for Catholics and Jews.

Old Chapel Gets Fire Sprinklers

Installation of a new automatic sprinkler system, presently under way in Old Chapel, is expected to reach completion by Oct. 1. Construction on the fire prevention system began Aug. 16.

The fire control system operates on an air temperature principle. Each nozzle is equipped with a temperature fuse set for 160 degrees. When this danger mark is reached in a room, the sprinkler automatically switches on.

Approximately 400 sprinkler nozzles, averging two to three per room, are now being installed.

Coffey and Teachout, Colchester, Vt., are the engineers for installation of the system manufactured by Reliable Automatic Sprinkler Co., Mt. Vernon, N. Y.

Salaries Up Ten Per Cent

With the start of the current fiscal year on July 1, faculty salaries were increased by an average of ten per cent. This amounts to an average increase of approximately $500 for the full time faculty members of the College.

Salary increases for the Middlebury faculty were made possible by the Ford Foundation grant, an increase in tuition and gifts from alumni and others to the Middlebury Development Program. They include merit and promotion increases as well as general salary raises for the faculty.

Retirement and Social Security benefit payments were increased accordingly. Faculty members received an additional sum amounting to five per cent of their salaries in payment of annuity premiums. All College employes come under Social Security.

The College received an endowment grant of $336,200 for faculty salaries from the Ford Foundation plus an accomplishment grant in excess of $100,000. Middlebury was one of 126 of the 600 colleges receiving the foundation's grants which also was awarded an accomplishment grant for leadership in the area of increasing faculty salaries. The Ford grant is being given to the College in two parts, one half received on July 3, 1956, and the balance to be received in July 1957.

Editor's Note: The CAMPUS welcomes letters to be published in its "Letters to the Editor" column. Although names may be withheld upon request, all letters must be signed in order to be eligible for publication.

Six Senior Men Awarded Military Honors By ROTC

Enrollment in the Middlebury College ROTC program reached a new high of 475 cadets, it was announced by Lt. Col. Charles W. Adcock, professor of military science and tactics. This is an increase of 40 cadets over the number enrolled last year at this time and an increase of over 250 since the program was started in 1952.

The training of the cadet corps while on the drill field will be conducted by cadet officers who are seniors and are enrolled in the ROTC advanced course. Cadet officers are placed in positions of command within the Cadet Corps ranging from the position of Cadet Colonel, commanding the regiment, to lieutenants commanding one of the platoons. The organization and development of the ROTC crack drill platoon is also the responsibility of the advanced course students. During this period of training, an important phase of leadership, instructional duties and exercise of command authority, is developed by the cadet officers.

Drill periods began this afternoon from 3 to 5 o'clock and will continue weekly until Thursday, November 15. On November 15 the formal ROTC Military Ball will be held. Drill is suspended in the winter months and resumed in the spring.

The increase in enrollment has

(Continued on Page 4)

Building Plans

Ground is reportedly expected to be formally broken for the Charles Baker Wright Memorial Theatre during homecoming weekend this fall. Bids for its construction will be sought in the near future.

No immediate plans have been made for breaking ground for the men's dormitory which will be located to the southeast of Hepburn Hall. The awarding of contracts for construction is pending reception of bids shortly.

Sophomores To Lose Cars Next Fall Under New Rule

Safty and Parking Problems Are Reported As Causes For Change

Curtailment on the future use of student automobiles was announced during the summer by President Samuel S. Stratton. The statement of a new motor policy followed discussion of the college automobile problem for over a year in administration and trustee meetings.

"It has been decided that freshmen entering College in the fall of 1956 will not be permitted to possess or drive automobiles in College until the beginning of their junior year," Dr. Stratton stated.

This means that by the fall of 1958 only juniors and senior will be allowed cars, compared to the use of cars by sophomore, junior and senior men in the past years. Women have never been allowed the use of cars, except during the last six weeks of their senior year.

The step of curtailing the use of cars by students, according to the August issue of the College News Letter, is "an effort by the College to cooperate with the safety programs of motor vehicle authorities and to continue in the effort to keep Middlebury a truly residential college."

The restriction was reportedly partly due to such vehicle problems as congestion on College St., off-street parking space and the frequency of accidents involving student-operated cars.

Dean of Men Harris E. Thurber reported that of the some 275 cars registered at the College, over 30 were involved in accidents during the past academic year.

Helen G. MacKay

H. G. MacKay Ends Service

Miss Helen G. MacKay, secretary to the President of the College, retired on June 30 after 15 years at Middlebury.

At the time of her retirement she was cited by the President and Fellows of the College "For the outstanding performance of her duties and responsibilities. . ."

The citation started in part, ". . . her work, more often than not, has been beyond the line of duty and has been performed with a cheerfulness and sympathetic understanding that has won her scores of friends among students, Alumni-ae, faculty staff and trustees."

Midd Makes Improvements On Grounds

The past summer saw the undertaking and completion of several projects designed to improve the facilities of the College. Over Labor Day weekend Willard parking lot was paved and marked, and lights were installed for the center aisle of traffic.

The parking lot behind Warner will be done away with, and a new paved driveway will be put in within the next few weeks. No definite plans have been made about the paving of Voter parking lot, because the site of the new theater has not been positively decided upon.

Extensive planning and preparation were also undertaken for new buildings. Both the theater and the new dormitory are in the blueprint stage. The old ASP house was remodeled and plans to include rooms for four sororities and an apartment were made. Additional listening booths were built for the language department in Hillcrest.

Two faculty houses were redec-

(Continued on Page 4)

Summer Student

Dorothy Covalt '58 was one of 21 college students who participated in the summer apprenticeship program at the Roscoe B. Jackson Memorial Laboratory in Bar Harbor, Maine.

Miss Covalt, who was sponsored by Dr. Paul B. Swain, research associate at the Bar Harbor institution, studied chondrodystrophy in rabbits.

Degrees, Honors Conferred At '56 Commencement

At Commencement exercises June 11, Middlebury conferred honorary degrees on the following men and woman:

Erwin D. Canham, editor of the "Christian Science Monitor," received a Doctor of Laws. Canham was the commencement speaker. A Doctor of Laws degree was granted to Clifford P. Case, United States senator from New Jersey. Case is the father of Ann Case '56.

William Daniel Livingstone '42, the bacculaureate speaker, was granted a Doctor of Divinities degree. He is pastor of the First Presbyterian Church, San Diego, Calif. A Doctor of Science degree was granted to Joseph Davidson, vice-president of the Union Carbide and Carbon Corp. and developer of Vermont's Equinox Skyline Drive.

Mrs. Helen Davis, educator and authority on the Far East, received a Doctor of Humanities degree. Don G. Mitchell, chairman of the board of directors of Sylvania Electric Products Co., researcher and director of the Retina Foundation received a Doctor of Science degree.

Commencement honors were as follows: valedictory honors for the men went to Alan Entine and for the women to Julia King. Salutatory honors went to William Fay and to Meredith Parsons, all June graduates.

Appointments to Phi Beta Kappa for the class of '56 went to Alan Entine, Walter Mears, Mrs. Nancy Clemens Allen, Carrol Anderson, Lynne Atherton, Jean Bisett, Ann Case, Catherine Corrigan, Barbara Esty, Marcia Hanson.

Also appointed were Julia King, Shirley McMahon, Darlene Nelson, Meredith Parsons, Judith Phelps, Sarah Smith, Helen Starr, Joanna Strother, and Leigh Updike.

C. A. Organizes New Committee

A new social action committee of the Christian Association has been formed, according to Lawrence Curtis '57, president of the association. The purpose of the committee is to deal with such problems as discrimination in the Middlebury admission system. It will also work in conjunction with the Student Christian Movement in studying the problem of discriminatory clauses in fraternity constitutions.

A revamped social service committee will sponsor classes in preparation for nurse's aid and Sunday school teaching.

The first meeting of the Christian Association will be Wednesday, September 26 at 7 p.m. in the South Lounge of the Student Union.

KDR Establishes Fund For Grants

The Kappa Delta Rho Scholarship Fund was established by Kappa Delta Rho, national college fraternity, at Middlebury College, during the fraternity's biennial convention held here late in August. The scholarship fund will be the property of the college and the income will be distributed to worthy male students majoring in science or mathematics, with preference being given to members of KDR.

A bronze plaque commemorating the founding of KDR at Middlebury over 50 years ago has been installed on the southeast corner of Painter Hall, original site of the fraternity's founding. Three of the original founders were present at the unveiling ceremony, at which time President Stratton accepted the plaque for the college.

Guests of honor at the final banquet on Saturday, September 1, were President and Mrs. Stratton, Dean and Mrs. Thurber, and Egbert C. Hadley, chairman of the Board of Trustees. The speaker was George Starr Lasher of the University of Michigan, who is known for his organizational work with fraternities.

The Delta Upsilon National Convention, scheduled to be held during August, was postponed until 1957.

Watch the CAMPUS and Daily Notices for announcement of tryouts for our editorial, sports, business and advertising staffs next week. Positions are open for freshmen and upperclassmen as well, and especially needed are photographers with experience in developing and printing.

THE MIDDLEBURY CAMPUS

The student newspaper of Middlebury College, published every Thursday during the college year except during official college holidays. Editorial and business office in the Student Union Building, Middlebury College, Middlebury, Vermont. Telephone - Middlebury 467-J.

Entered as second class matter, February 28, 1913 at the post office, Middlebury, Vermont.

Subscription rate, $3.50 a year

Business hours - Thursday evenings from 7 to 9 P.M.

Sine Qua Non

The further restriction on the use of cars by undergraduates during the summer by President Stratton, cannot be called unexpected. It seems to be a last resort, or at least an exploratory step toward a last resort, to ameliorate the automobile problem which plagues not only Middlebury College but most other colleges and municipalities as well. The problem has grown continually worse, despite efforts of students, faculty, administration, trustees and their combined committee which undertook consideration of the situation early in 1955 in an attempt to forestall or prevent such a curtailment.

Although shortage of parking space, traffic congestion and high accident rates are not peculiar to any community, this college community along with many other colleges and universities is placed in a unique position. For it is influenced not only by its own needs as a community but also by the needs of the larger community within which it exists. And the governors of the community, the trustees and administrative officers who make and enforce the rules by which their institution exists, are subject to pressures from both within and without the College. They must live with one while they live within, at least officially, the other, and demands of the two often clearly conflict.

This is not to say that car restrictions are due entirely to demands of those outside the College; that they are so due in part is clearly evident. It is also evident that the actions of students are subject to close scrutiny off the campus and rightly so, for when we pass the limits of the campus we are but visitors in another community, often unconsciously offending the rules by which that community lives.

Conditions on the campus itself necessitated action: the congestion on College Street during the evening, the problem of maintaining parking areas, the fact that somewhat over ten per cent of Middlebury's student-operated cars were involved in accidents during the past academic year. It is unfortunate that action had to come as it did, in the form of restrictions which will probably end in inconvenience and bitterness, for lack of adequate transportation facilities to and from the College condemns some students almost to isolation.

Although the necessity of such a step is obvious, let us hope that a more favorable solution may be reached through the students' realization and understanding of the administration's position coupled with a real effort on the part of College officials to provide for the convenience of the students.

We realize that a solution completely satisfactory to both parties cannot easily be arrived at, perhaps is not possible. We do not urge the students to protest the regulation: on the contrary, perhaps acceptance of it is the only feasible answer. But that should not lessen efforts, undertaken with mutual respect and understanding, to find a solution which will promote good will between students and administration.

C. C. Revision

The reorganization of the freshman Contemporary Civilization course, to which the class of 1960 is being introduced this week, is a significant advance toward a goal which has been conspicuously lacking in the freshman program of the past, that of training in the seminar technique.

Discussion groups, in whch students are to report on and discuss the background of current problems, will be the core of the revised program. Emphasis will be placed upon exploring the political and social background of contemporary international situations, such exploration to be supported by familiarization with the works of social and political, moral and religious leaders of the past.

It is surprising that, in light of the importance of seminar experience at the graduate level of study, so little emphasis has been put upon the beginning undergraduates in the seminar technique. It may be argued, of course, that the purpose of more advanced undergraduate courses is to give that training. However, is it not logical to introduce the student to this type of study as soon as possible? Professors of the College continually complain of students' insufficient preparation in research and reporting methods in more advanced courses, which frequently depend heavily upon those methods for success.

The new schedule of this fundamental freshman course can be of valuable assistance in this field, and possibilities of exploiting the implications of such a schedule to the fullest should not be overlooked.

Contemporary Civilization, as a valuable introductory course, can fulfill two important functions: to acquaint the student with a general background of information concerning contemporary problems, and to give him preliminary training in the basic method of advanced study, the seminar technique.

College Adds Sixteen Men, Seven Women To Faculty For Coming Academic Year

Twenty-three new faculty appointments have been made for the coming academic year according to an announcement made by President Samuel Stratton. Four of these are additions to the staff, four are replacing faculty members who are on leave for all or part of this year, and the remaining fifteen are filling vacancies left by retirement, transfer to other universities and loss to industry and business.

Horace P. Beck, assistant professor of American literature has joined the faculty as the third member in his department. Dr. Beck received his M.A. and Ph.D. from the University of Pennsylvania where he also did his undergraduate work.

Rita Berger, wife of Jean Berger of the music department, is a lecturer in physical education for women. She received her training at the School of American Ballet and the Metropolitan Opera School of Dancing.

Ronald Bielli comes to Middlebury from Worcester Polytechnic Institute as an instructor in mathematics. He received his B.S. and M.A. from the University of Vermont.

Mme. Colette Brichant, known to upperclassmen as Mlle. Dubois, returns this fall as French instructor and directress of the Chateau. She is a Docteur de l'Universite de Paris.

William N. Castor, a Middlebury alumnus class of '50, returns as an instructor in contemporary civilization. He received his M.A. from Columbia and has taught at the University of Puerto Rico.

John V. Craven, instructor in economics, has taught for two year at Colgate University. Craven received his A.B. from Bowdoin and his M. A. from the University of Colorado.

John A. G. Faggi, assistant professor of history, graduated from Princeton and received his Ph.D. from Columbia.

Emery W. Flavin, instructor in sociology, received his B.A. from Bates and his M.A. from Boston University.

William Harris, assistant professor of classics, comes to Middlebury from Stanford University. Dr. Harris received his A.B., M.A. and Ph.D from Harvard University.

Marsha Hollander, instructor in chemistry did her undergraduate work at the University of Rochester, received her M.A. at the University of Toronto and her Ph.D. at Iowa State College.

Michael E. Hutchinson, lecturer in history, is on a Fulbright exchange program at Middlebury this year, while Professor Pardon Tillinghast of the history department is teaching in his position at London City School, London, England. Hutchinson has history honors at Trinity College, Cambridge, England.

William F. Kehoe, instructor in English, received his A.B. from Dartmouth and his M.A. from Yale University.

Mary E Lick is the new head of the physical education department for women. She received her B.A. from Lake Erie College and her M. S. from Smith College.

Vincent R. Malmstrom, Ph.D., is an additional instructor in geography Dr. Malmstrom received all his degrees from the University of Michigan and comes to Middlebury from Bucknell University.

Mrs. Berthe Normano is replacing Mischa Fayer as a lecturer in the Russian department for the first semester. Fayer is on a sabbatical leave, and has a Carnegie Foundation grant to study in Russia. Mrs. Normano received her training at the Women's University of Petrograd.

John Parke is an assistant professor of American literature during the first semester absence of Professor Reginald Cook who is on sabbatical leave in the southwest. Parke received his A.B. from Dartmouth and his M.A. from Middlebury.

Chandler A. Potter, lecturer in drama and designer for the theatre received his A.B. from Amherst and his M.F.A. from Yale University.

Arthur M. Schaefer, instructor in economics, did his undergraduate work at the University of Pennsylvania and taught for a year at Muhlenberg College before coming to Middlebury.

James C. Shields, instructor in English, received his B.A. from Monmouth College and his M.A. from the University of Pittsburgh. He taught for two years at the University of Hawaii and has studied at Yale for the past three years.

Frederick W. Swift replaces John Valentine as a lecturer in psychology. Dr. Valentine left Middlebury to join Educational Testing Service in Princeton, N. J. Swift received his A.B. from Harvard, an M.A. from New York University and an M.A. from Harvard.

Summer Staffers Give New Enthusiasm To Bread Loaf

By Ann Boyer

If all goes well, maybe we can hope for, very soon, a Real American Literature.

Judging from the 1956 enrollments of the Bread Loaf School of English and of the Bread Loaf Writers' Conference, modern Americans are manifesting a steady appetite for reading literature and an enthusiastic interest in creating it. The School of English kept to its '55 number of 121 students, but the Writers' Conference went from 106 in '55 to 156 in '56.

The steady prospering of these two ventures, the English School begun 37 years ago, the Writers' Conference begun 31 years ago, can be partly attributed to the spreading fame of their well-known staffs. Both include, as a special lecturer, the attraction of poet Robert Frost.

Cook Directs

Under the directorship of Reginald L. Cook, the English School listed on its faculty Carlos H. Baker, Woodrow Wilson Professor of English and chairman of the English department at Princeton; Herbert Ross Brown, professor of English and Edward Little, professor in Rhetoric and Oratory, and chairman of the English department at Bowdoin; Robert Gorham Davis, professor of English and chairman of the English department at Smith; Donald Davidson, professor of English at Vanderbilt; and Elizabeth Drew, visiting professor of English at Smith.

Also: Hewette E. Joyce, professor of English at Dartmouth; Maurice Kelley, professor of English at Princeton; Erie T. Volkert, professor of drama and director of the theater at Middlebury; and, as special lecturers, Richard Eberhart and Malcolm Cowley.

New Staffers

Partly because of the increased enrollment and partly because of the sudden deaths of former members Bernard DeVoto and Fletcher Pratt, the Writers' Conference added six members to its distinguished literary staff. This was also the first year the Conference was under the directorship of John Ciardi and his assistant director, Paul Cubeta.

The new members were Kay Boyle, novelist and short story writer; A. B. Guthrie Jr., Pulitzer Prize novelist; William Raney, senior editor of E. P. Dutton and Company; Max Steele, novelist, short story writer, and teacher; and Mildred Walker Schemm, novelist and teacher.

Other Bread Loaf staff members include Leonie Adams, poet and teacher; Catherine Drinker Bowen, biographer; Bruce Lancaster, historical writer and editor; and William Sloane, novelist and editor.

Kay Boyle, right, novelist and short story writer and member of the Bread Loaf Writers' Conference, chats with a guest at the Conference held during the past summer.

Frosh Leave Outer World, Hustle Through Orientation

By Joe Mohbat

Last weekend the gates swung closed on several hundred young, eager freshmen, and as they bid farewell to the outer world for four long years of whatever Middlebury holds in store for them, Freshmen Orientation Week sought to indoctrinate them with a smattering of the academic, social and military affairs of the College.

After the annual chorus of gasps upon the awe-inspiring sight of The Chapel On The Hill As Seen Through Rain, the frosh led their parents (who, for the first time in twenty years were taking a back seat-yet who were obviously more excited than their offspring) to Old Chapel, where they were greeted by effusively smiling Blue Key men. Little did the frosh know that in a few weeks' time these same outstretched hands would be escorting the shivering, pajama-clad men through the cold midnight air to the Chapel steps.

While the freshmen found their room and met roommates, for better or for worse, the parents wended their way to the faculty reception in the living room of Pearsons Hall. This proved to be quite a success, and crowds fought their way in and out of the building all afternoon for a glimpse of the Learned Ones who were to direct the lives of their young ones until 1960.

That evening the freshmen were herded into the College dining halls for their first experience with Common meals, and after this bitter disillusionment the men trooped down to Munroe where the Blue Key men, smiling a bit less already, laid down the laws about where to walk, whom not to be seen at football games with (oh! where has the glamour of college

(Continued on Page 7)

Deans Name 161 For Honors Second Semester Of '55-'56

A total of 161 students attained dean's list honors for academic achievement for the past spring semester. A student must maintain an average of 85 or higher with no single grade below 80 to attain this honor.

Men in the class of '56 who attained a dean's list rating for second semester last year are Cyrus Anfindsen, Mark Benz, Bruce Clewley, Richard Davison, Alan Entine, William Fay, Walter Mears, Harold Meeks, Donald Miner, Harold Olson, Robert Rice, Peter Salmon, Robert Santomenna, Joel Sherburne, and Arvin Trevvett.

Senior women are Elizabeth Davis, Carol Anderson, Lynne Atherton, Jean Bisett, Elaine Bliss, Lucy Boyd, Wendy Buehr, Ann Case, Catherine Corrigan, Elizabeth Curit, Rosamond Mueller, Margaret Dickie, Mildred Duncan, Barbara Esty, Sally Evans, Mary Gaines, Alma Goetcheus, Leila Goodrich, Marcia Hanson, Sandra Harden, Judith Hastings, Mary Hickcox, Jane Hoge, Judith Holmes, Gwynne Kimball, Julie King, Gail Knight, Gretchen Kraatz, Myrdith McKinley, Shirley McMahon, Gail Moore, Charlotte Mugford, Darlene Nelson, Martha Page, Meredith Parsons, Jane Penney, Judith Phelps, Anne Rice, Suzanne Sharp, Diana Shulman, Sara Smith, Shirley Smith, Lisbeth Spoerri, Jean Squire, Helen Starr, Joanna Strother, Sally Thompson, Judith Tichenor, Miriam Updike, Nancy Warner and Barbara Worfolk.

Those men in the junior class with a dean's list rating are James Barker, Charles Canedy, Norman Ingham, Leonard Lewandoski, William McMurray, George Sargent, Jon Shirley, David Tuttle and Frederick Wells.

Women in the class of '57 are Mary Bushnell, Pamela Clark, Jean Forkel, Lois Guernsey, Frances Hall, Lee Hall, Gretchen Heide, Judith Holmes, Margaret Houck, Carol Jardine, Anne Johnson, Martha Johnson, Patricia Kane, Kathleen Lowrie, Sandra Nelson, Priscilla Noble, Helen Pagoulatos, Mary Pitcher, Kathleen Platt, Geraldine Raymond, Catherine Rock, Carol Van Duyn, and Barbara Wilson.

Men from the class of '58 are Richard Gold, Frank Heffron, Anthony Hilfer, Alex Horniman, David Krugman, and Richard Woodworth.

Women from the sophomore class are Ann Andruss, Dorothy Bigelow, Elaine Brzezenski, Agnes Chandellier, Marilyn Coutant, Susan Daniel, Helen Dickey, Linda Durfee, Lucia Grant, Nancy Gurney, Leslie Keebler, Alice Kenney, Suzanne Lewis, Jean Lindblow, Alice Mairs, Carol Marsteller, Janet Miller, Linda Shutt, Grace Warder, Debora West, Barbara Widenor, Katherine Williams and Sandra Willson.

Men from the class of '59 are James Baum, Richard Hofmann, James McGowan, Lewis Parker, Bruce Phinney, David Riccio, and Frederick Swan.

Freshman women are Robine Andrau, Barbara Burch, Carol Davis, Dorothy Dever, Millicent Fairhurst, Helen Fitzgerald, Alice Frail, Martha Gerhart, Anne Goebel, Marylee Hancock, Dianne Hodet, Ailene Kane, Stanlee Lonsdale, Anne Martin, Barbara Mitchell, Annabelle Nisbet, Carolyn Parks, Pamela Payne, Judith Schlessinger, Patricia Sherlock, Diana Smith, Nancy Smoller, Dorothy Steinmetz, Sarah Wagner, Ruth Winniger, Jo Ann Witmer and Susan Work.

Pins & Rings

Recently pinned were Dorothy Bigelow '58 to Hull Maynard '56.

Engaged during the summer were Patricia Miller '57 to Ronald O'Keefe '56; Adrienne Littlewood '57 to Robert Delaney '52; John Harrington '56 to Gail Bliss '57; Barbara Head '58 to Bruce Mackey '59; Constance Crabbe '59 to Michael Dehlendorf '58 and Barbara Coffin '58 to Glen Graper '57.

Recently married were Jane Penney '56 and Tony Cowles '58; Jean Eyles '55 and David Dalton, Dartmouth '55; Tony Rice '55 and Ellen Child '55; Barbara Butters '56 and Douglas Norcross '55; Jane Hallenbeck '56 and Peter Zecker '55; Bob Beattie '55 and Ann Dwinnell ex '57; Ron Vernier ex '57 and Janice Fogg, Elmira ex '57; Richard Brenner '57 and Cora Lee Renner, Green Mountain '56; Mona Myers '56 and John Wheatley '56.

"Do-It-Yourself" Summer Sets Style For Middites Abroad

By Gerry Raymond

Europe in the summer, it seems, has become what Florida has perennially been for spring-minded students, a Middlebury mecca. It has even been rumored in some statisticians' circles that there were more Americans on the Continent than there were Europeans. A good travel agency will provide the unfortunate few who stayed in the States with enough information to carry on a relatively learned conversation, but there is nothing like a first hand report of the undercover goings on which the Experiment and Sita tours never tell. So we selected the duo which goes by the name of "Mole and friend" as a typical example of what Middlebury-ites experience abroad.

Mole and sidekick spent what might be termed a "do-it-yourself" summer. In other words, they bought a Volkswagon and set out on their own. They began in London, not at the usual post-card places of Buckingham Palace and the British Museum, but in a flat in Soho, the souped-up Greenwich Village section. Here in the company of the down and out actors and musicians led by Duchess of Soho and court they managed to start a few small street serenades, street riots, and floating early a. m. parties. After that the more upper-crust Britishers seemed a bit stuffy and uncordial toward the American collegiate males.

After a small side trip to Edinburgh, Scotland, the beetle-bound twosome crossed the channel and found themselves bound for the much-touted Isle de Paris. Promptly they discovered that Paris was the place to spend all sorts of money and decided to leave all enthusiastic comments up to the more frivolously spending Middlebury females. However, when asked their comments on French women, Mole and friend replied, "WOW."

Via Nice and the Festival of Flowers (and more beautiful French women), they went on to Spain and Barcelona to discover the American Fleet in full possession of the town. Mole found it slightly difficult to navigate the small towns with only fifteen words of Spanish in his vocabulary. At one point he was driving the minute Volkswagon up a one way street and went smash into a truck (why he didn't just go under the truck, we'll never figure out.) He never could explain to the irate truck-driver and the local police force just why it wasn't all his fault.

Spain, they found, was full of pseudo-politicians all hotly discussing the pros and cons of the Algerian situation and blaming it all on the French. After escaping without commitment on the political questions, black-market tourist prices, and armed crowds in the city streets, they found themselves on Majorca guzzling 60 cent champagne. Poor Mole, however, didn't know enough French to order the champagne, so was seen only as a small lonely mound on the beach.

Next on the agenda was Italy which they both promptly decided was more attractive to American women because of the abundancy of hustling Italian men. Here they found themselves mixed up in a bicycle race which hadn't counted on Volkswagon interference. Then they got lost in the Italian mountains and practically were converted to Italian peasants before they escaped.

Mole ran into further complications in Austria after he was discovered by two members of the town police climbing up a local wall in a distinctly wobbly condition. Quick thinking saved the day, however, and Mole reached into his pocket and privately paid his way out of an evening in the not-too-comfortable jail.

Having avoided their fellow Middlebury travellers for most of their trip, Mole and friend finally ran into Jim Walling and Konrad Schultz in the Hoffbrau House in Munich. From there they headed back to the collegiate atmosphere through a trip to Hiedelberg, exchanging all sorts of vital information on new methods of checking, beer-drinking and other better known college functions. These they are selling to the highest bidder, having returned to Middlebury safe and sound and of dubious sanity from their European safari.

New Faculty

(Continued from Page 2)

Mlle. Jacqueline Thibault is instructor in French and assistant directress of the Chateau. She is a native of Normandy, and has her license des lettres and diplome d'etudes superieures.

Mary E. Whearty is a new instructor in home economics and received her M.S. from Simmons College.

Klaus H. Wolff, lecturer in economics, received his A.B. from Wabash College and has received grants for the past two years to study at the Research Center in Entreprenurial History at Harvard University.

Ronald Rood, M.S., has been appointed assistant in biology.

Marshall Scholarships

U. S. college students may now apply for Marshall Scholarship awards, good for two years' study at a British university, plus fare and $1,540 a year cash. Applications should be in as early as possible in October, and in any case not later than October 31, 1956, for the scholarship to be taken up in the fall of 1957.

So far, 36 Americans—11 women and 25 men—have benefited from the program. Of these students, 14 have gone to Oxford, nine to Cambridge, eight to London University's School of Economics, and one each to the universities of Edinburgh, Glasgow, Birmingham, Manchester and Bristol.

Students wishing to try for an award may obtain information from Dean of the Faculty John G. Bowker or apply directly to the British Consul General, New York City.

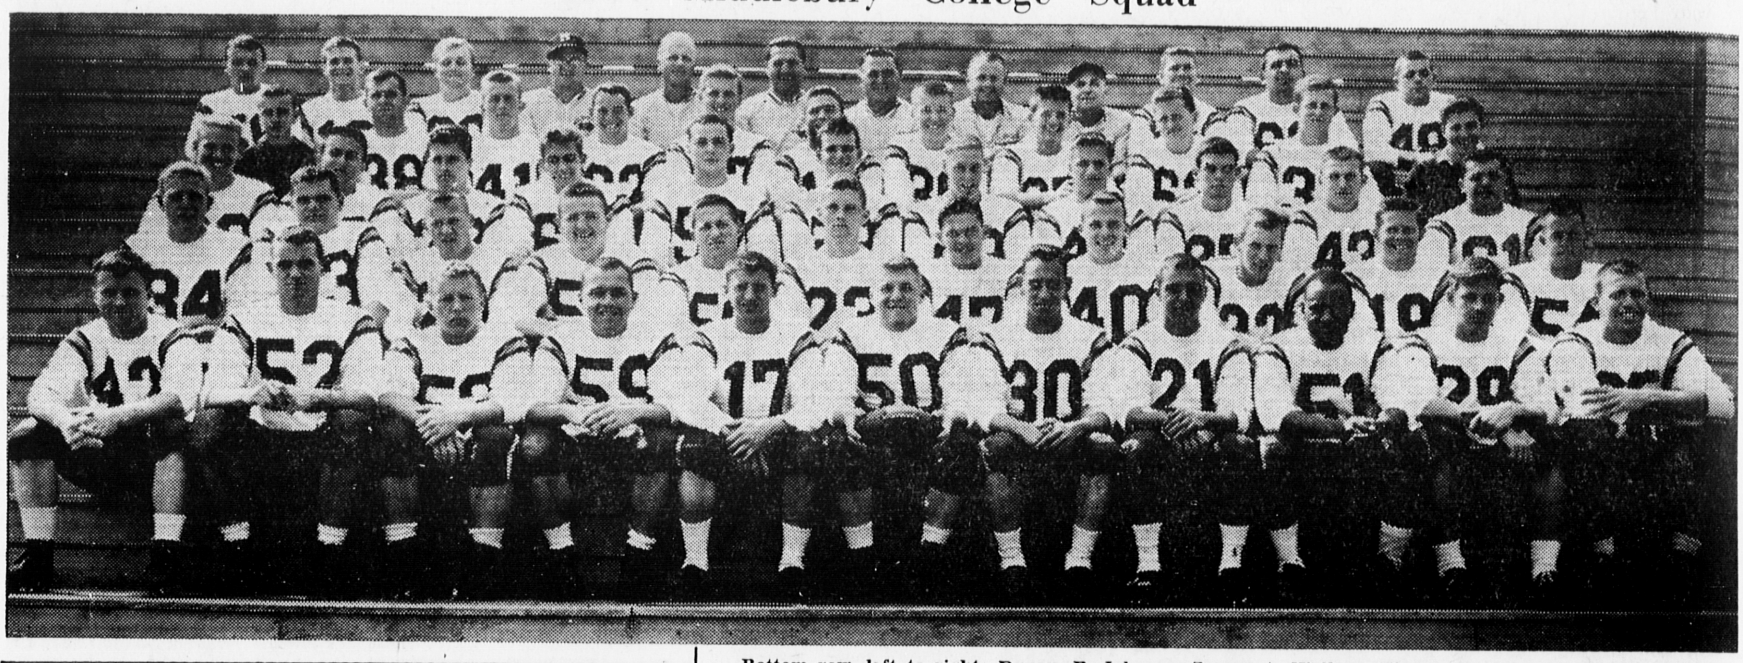
Grid Outlook Is Best In Several Years

1957 Middlebury College Squad



Bottom row, left to right: Dugan, B. Johnson, Sargeant, Wallace, Tirone, H. Johnson, Rausa, Cooper, Holmes, Weisner, Hall; second row: Peterson, Batal, Sundstrom, Ryan, Smith, R. Johnson, Ginsberg, R. Thomas, Currey, Kozlowski, Taylor; third row: Barenborg, Tangeman, Moody, Russ, Hughes, Jackson, French, Mentor, Evans, Gualteri, Lyford; fourth row: Layman (mgr), Manley, Doyle, H. Thomas, Lardner, Brodsky, F. Johnson, Howick, Walsh, Bartlett, Bond (mgr); fifth row: Gilwee, Frasche, Cobb, Waterman, Coach Mackey, Coach Guarnaccia, Coach Nelson, Coach Sheehan, Aldrich, Tryder, Fusco, Dean.

Large Turnout Promises Added Depth; Nelson Happy

By Joe Mohbat

The outlook for the 1956 Middlebury grid campaign is one of the most optimistic in years. The Panthers gave up a large part of their summer vacations in order to get back to Midd on Labor Day, whereupon began a period of intensive practice sessions under Coach Walter J. "Duke" Nelson, at the helm in his eleventh season since the war, and his staff of Sam Guarnaccia, Bobo Sheehan, and a new man, Stub Mackey.

One of the major pleasant surprises as workouts got underway was the fact that a total of 27 freshman men, the greatest number in years, turned out for drills. Under an ECAC ruling, colleges with a male enrollment of under 750 may allow their freshmen to compete in varsity sports. In addition to the frosh, 27 upperclassmen returned, including 15 lettermen. The season opens at home a week from Saturday, when a strong Wesleyan squad invades Porter Field. This is the first of four Panther home games.

Added Depth

Nelson this year will be working from the single-wing again with several variations including spinners and buck sequences. He unusually variations including spinners and buck sequences. He was unusually cheerful after last Saturday's productive scrimmage with St. Lawrence won by the Panthers, 33-13. "There was no outstanding individual in that one," Duke said, "but the encouraging thing was that the boys showed that we'll be able to substitute freely at any position. The team will have good depth this year." He added that the large freshman turnout will account for a good deal of the depth.

The team seems also to be strengthened by the return of two veterans, running backs Pete Aldrich and Rollie Dugan, both of whom looked good in scrimmage, and who should speed up the team's offense in compensation for a possible defensive weakness.

Fusco In Backfield

Another surprise is that Dick Fusco, who lost thirty pounds preparing for the season, has been switched from tackle to blocking back. The weakness this leaves in the tackle slot will be offset by Fusco's backfield work.

Sophomores Sam Gualteri and Hank Moody have also been moved to the backfield, and Dick Thomas and Bill Holmes have been shifted to wingback spots.

The fullback position is one of the strongest, being shared by Rog Tirone and Floreal Lavine, the former of whom will take on the placekicking responsibilities. The other veteran backs this year are Zing Rausa, Pete Cooper (the team's passing ace), and John Mentor.

The ends have the greatest depth, with John Hall and Ron Wiesner backed up by Milt Peterson and Don Taylor. The tackle slot may present a problem, but as of now there are four pretty capable candidates in Bill Ryan, Dick Johnson, Bob Dean and Rod Smith. The main difficulty here is lack of depth and game experience.

Center of Line Strong

The outlook is bright as far as guards are concerned, this position being capable filled by Jim Witham, Tim Wallace, Scotty Sundstrom and Jake Ginsberg. At center, of course, is the team's big captain, Moose Johnson.

The only other great problem seems to be at quarterback, where lack of game experience will be

(Continued on Page 7)

Veteran Soccer Team Boasts 15 Active Lettermen

By Don Lawton

The Middlebury College soccer squad began practice this week with a large number of veterans on hand. Only in the fullback and halfback positions is the team at all hampered by the lack of sufficient returning talent.

The loss of Captain Sy Marchand, stellar fullback, and left wing Bert Emory by graduation and the failure of Jim Worthington to return to school have left several openings in the starting lineup.

The need to develop a stronger reserves is another problem faced by Coach Reynolds. The Panthers, who open against powerful Colgate on September 28th, will have to strengthen these weaknesses in order to humble the talented Red Raiders.

Returning

Outstanding among the men returning are John Nichols, who did an extremely fine job in his first year in the goal, Rich Miner, top-notch center-half, Dave Collin, fine freshman right-half of a year ago, and Captain Alex Carley and Kit Cain, both high-scoring forwards. Gil Partch, an excellent fullback, returns to give that position its only outstanding returning letterman of the previous season.

Lettermen Ewart Thomas, Otto Albers, Ed Bancker, and Hugo

(Continued on Page 7)

Lupien Resigns; Mackey To Coach Basketball, Track

Ulysses J. (Tony) Lupien, basketball coach at Middlebury for the past five years, recently resigned his post to assume the duties of head coach of baseball and coach of freshman basketball at Dartmouth College.

Replacing Lupien is Erkki "Stub" Mackey, former head coach of football and track at Springfield (Vt.) High School. Mackey will also assist Duke Nelson as line coach for the Panther football team.

Waterman Trainer

The athletic department also announced that Richard Waterman has been appointed trainer for all Middlebury teams. Waterman fills the post, vacant since Vincent Pitre's resignation last winter.

Under Lupien the Panther basketball team enjoyed its most successful seasons in the history of the sport at Middlebury. Lupien coached squads compiled a 60-49 record during the five year period and last winter's 14-7 mark was the best since 1929. Lupien and the college also enoyed the services of Al "Sonny" Dennis and Tom Hart, probably the two finest players ever to wear a Panther uniform. A Lupien served as player-manager for Jamestown (NY) of the class former Red Sox first baseman, D Pony League for several years.

Mackey Succeels Brown

Mackey, who also succeeds the retired Arthur M. Brown as track coach, attended Springfield (Mass.) College where he starred in football and track. He went to Springfield High in 1949 where he remained until this summer when Middlebury obtained his services. In addition to coaching, he worked for the Springfield Recreation Department as director of various sports programs.

Waterman, a graduate of Bilick's Trainers School in New York City, spent nine years as head trainer for Mount Hermon School, Northfield, Mass.

Fair Or Foul

By O. S. Morton

It seems to have become a tradition, at least at Middlebury, to view the coming of another fall sports calendar with skepticism and uncertainty. There is certainly substantial reasoning in this point of view, especially as far as a small college is concerned, for the previous June's graduation annually takes away enough talent to cloud the fortunes of all Middlebury teams. Inexperience generally plagues the football and soccer teams as coaches labor to put together acceptable starting lineups before the first game shows them that they've a lot more shifting and substitution of personnel to do in order to rate as a formidable foe for the rest of the schedule.

This fall appears, at least at this point, to be a big exception, and for the first time since this reporter has been at Middlebury. We have never seen Duke Nelson so happy and optimistic over prospects for the approaching campaign, as he runs his squad through its two-a-day practice sessions. And he certainly has a right to be, what with a turnout of some 55 candidates, the largest in some time, including 27 holdovers, 15 of whom are lettermen, and 27 freshmen, many of whom show real promise. Also returning is Pete Aldrich, one of Nelson's best running backs as a frosh in 1953, and Rollie Dugan who should prove quite valuable. Duke can start an experienced regular at every position and in most cases has sufficient depth to substitute freely. The scrimmage win over St. Lawrence showed him this as all four units worked smoothly against the not-so-potent Larries. Add all this together and the football picture brightens considerably.

Thomas Reynolds, in his second year as soccer coach, has few reasons to worry either. He lost Cy Marchand to graduation but otherwise has most of last year's starters back with him. Fifteen lettermen give him experience at every position with only noticeable weaknesses at fullback and half. The booters open against their toughest opponent on the schedule, Colgate, but should have considerable success after that.

Looking ahead to winter, Fred Neuberger is a happy man, and who can blame him? He'll undoubtedly have the best women's ski team in the nation, and certainly in the East, with the addition of frosh Penny Pitou, and Renie Cox to his squad. Penny skied in last winter's Olympic competition at Cortina and has won numerous races in this country for the past several years. Renie is last year's women's national junior champ, and like Miss Pitou, has won considerable fame in recent years.

It's been a long time since Middlebury has seen such radical changes in its coaching staff. It began with the reorganization of the athletic department last spring and reached its culmination when Tony Lupien moved to Dartmouth this summer and the College recruited Stub Mackey to replace both Lupien and Coach Brown. Also, for the first time since the middle of last winter, Panther teams have a regular trainer as Dick Waterman takes over Pete Pitre's old post. Both Mackey and Waterman come well recommended, and for the first time in some 34 years, Middlebury has a full time track coach who won't have the added duties of serving as athletic director.

Only time will tell how the 1956-57 athletic scene will shape up, but at this point it looks considerably brighter than it did after graduation last June when such Panther greats as Tom Hart and Ronnie O'Keefe collected their sheepskins. At any rate, we can be fairly sure of predicting a successful fall season. Winter and spring will take care of themselves and we'd better wait and cross our bridges when we come to them.

Soccer

(Continued from Page 6)

Wyss return to provide a strong nucleus to team with Carley and Cain on the attack. Talented wing Scott Greer provides the only well tested veteran at that spot. There is a possibility that letterman Andy Ford may fill the other wing berth. Albers also is capable of playing wing if needed. Jared Van Waggernen or transfer Dave Western may fill the other fullback post. The Panthers lack a reserve goalie if Roy Kotzen does not get over his cartilege trouble.

Look To Frosh

It is hoped that the freshman class will bring some strong talent, and undoubtedly some will move into starting berths or provide reserve strength. With a week to prepare for the Colgate game the team should be in good condition so that the lack of conditioning that plagued them last year, due to only five days practice, won't allow Colgate to romp to a lopsided 7-0 win after leading only 1-0 at the end of the half.

Football

(Continued from Page 6)

felt, and the new men here are neophytes at calling signals.

Strong Opposition

Regarding the opposition this year, it appears that all of Midd's opponents have stronger squads than last year — but then, so do the Panthers. Williams, for instance, is being bolstered by an undefeated freshman group. The new opponent on the schedule, Worcester Polytech (replacing Colby) appears to be strong. However, from this pre-season viewpoint, it would appear that Middlebury stands an excellent chance of bettering last year's 3-4 record, and an even better shot at knocking off UVM.

News Briefs

Miss Marina Bourgeal, a former instructor in Spanish here, has joined the faculty of Wilson College, Chambersburg, Pa., as assistant professor of Spanish.

She is a graduate of the National Insitute for Secondary School Teaching and the Normal School for Teachers at La Conina, Spain, and of the University of Madrid.

Election to Rhodes Scholarships will be held in December, 1956, the scholars-elect to enter Oxford University in October, 1957. The value of a Rhodes Scholarship is 600 pounds per year. Appointment to a Rhodes Scholarship is made for two years in the first instance with a possible third year if the Scholar's record at Oxford and plan of study warrant such an award. No restriction is placed upon a Rhodes Scholar's choice of studies.

Applications must be in the hands of the secretary of the state committee not later than November 6, 1956. The Memorandum of Regulations (which includes an application blank) and other information may be obtained from the Institutional Representative, Dr. Stephen A. Freeman, Old Chapel 34.

Orientation . . .

(Continued from Page 2)

gone?), and when to wear The Beanie. Meanwhile, the women were meeting new roommates and pretending they liked them.

Monday was more of a business-like thing, as the new ones were subjected to all sorts of placement and qualifying tests. In the afternoon student and faculty advisors were consulted, and after dinner the freshmen attended the Convocation Service, different this year in that it was an actual chapel service, conducted by Chaplain Charles P. Scott. A welcoming address was delivered by President Samuel S. Stratton.

Tuesday morning, a barrage of research tests were given at the Field House in an attempt to better evaluate the student's general ability. This is a new experiment, and forced the Mountain Club to hold its annual freshman outing in town, rather than at Bread Loaf, as has previously been the custom. In the evening MUA and WUA meetings were held, wherein the freshmen were briefed on the functions of each.

On Wednesday, a fascinating Library orientation introduced the frosh to the secrets of the library. This was followed by a meeting of the cadre of the ROTC Group with the freshman men, who, of course, then and there formed their opinions of compulsory Military Science. They mixed and mingled in the afternoon at the President's reception in his own back yard.

Today and tomorrow are a matter of first classes, emptying wallets for texts, and a Women's Forum Tea at the Community House.

Saturday afternoon Wig and Pen and Players will present a one-act play, "Hands Across the Sea," as a part of its annual open house in McCullough Gym. Wig and Pen department chairmen will speak briefly on the functions of each department.

In the evening Midd-Time Varieties will present at the high school, Midd-Nite a collection of skits and excerpts from previous spring musicals. This will be followed by the informal Freshman Dance, sponsored by Blue Key and Mortar Board, at McCullough Gym. By this time, of course, the freshmen will be full-fledged Middlebury Men and Women, completely oriented.

Dates Given For Graduate Exams

The Graduate Record Examinations, required of applicants for admission to a number of graduate schools, will be administered at examination centers throughout the country four times during the present academic year, Educational Testing Service has announced. During 1955-56 more than 9,000 students took the GRE in partial fulfillment of admission requirements of graduate schools which prescribed it.

This fall candidates may take the GRE on Saturday, November 17. In 1957, the dates are January 19, April 27, and July 6. ETS advises each applicant to inquire of the grduate school of his choice which of the examinations he should take and on what date. Applicants for graduate school fellowships would ordinarily take the designated examinations in the fall administration.

The GRE tests offered in these nationwide programs include a test of general scholastic ability and advanced level tests of achievement in sixteen different subect matter fields. According to ETS, candidates are permitted to take the Aptitude Test and/or one of the Advanced Tests.

A Bulletin of Information (in which an application is inserted) providing details of registration and admnistration as well as sample questions, may be obtained from Educational Testing Service, from college advisers or directly 20 Nassau St., Princeton, N. J. A completed application must reach the ETS office at least 15 days before the date of the administration for which the candidate is applying.

The Law School Admission Test will be given at more than 100 centers on the mornings of November 10, 1956, February 16, May 4, and August 10, 1957.

The Admission Test for Graduate Study in Business will also be offered on four dates: November 3, 1956, and February 7, April 13, and July 27 in 1957.

Bulletins for each test, including applications, should be obtained at least four to six weeks in advance of the desired testing date.

State Officals Laud Midd's Motor Code

Vermont Commissioner of Public Safety William H. Baumann, in a statement issued when the student Handbook was published Sept. 7th, commended the College for its Handbook and expressed pleasure with the "emphasis placed on highway safety and with the provisions for an Undergraduate Judiciary Council which should assist students in solving many of their problems."

Noting the emphasis placed on the motor vehicle code, the State Police Commissioner also commented, "I am especially gratified to note that College officials are stressing careful, courteous and lawful operation of motor vehicles as one of the undergraduate responsibilities. Any institution of learning which includes in its education program a real concern in developing in its student body an active interest in the responsibilities of citizenship and its attendant respect for law and order aids all enforcement agents immeasurably and is an excellent contribution to the welfare and safety of the public."

This year distribution of the Handbook, which is received by all undergraduates, is being expanded to include local and State officials. The publication will be sent to the office of the Governor, the State Police and Dept. of Public Safety, and village officials.

Students registering vehicles during the current year will receive a pamphlet on motor vehicle safety distributed by the Vermont Dept. of Public Safety.

ROTC Enrollment Jumps, Personel Increased To 10

Six students enrolled in the advanced ROTC program have been named Distinguished Military Students, it was announced this week by Lt. Col. Charles W. Adcock, Professor of Military Science and Tactics. All are seniors and hold cadet officer ranks in the College's 475 man ROTC unit.

The six seniors designated are: James Barker, Leonard Lewandoski, Peter Read, Wayne Reilly, Charles Sykes and Robert Telfer.

Selection of Distinguished Military Students is based on an evaluation of their character, leadership ability and aptitude for the military service. In addition, those selected must attain an academic standing in the upper half of their class and must demonstrate leadership ability through their achievements in recognized college activities.

Distinguished Military Students may apply for a regular Army commission to be received upon graduation from College with a baccalaureate degree. Upon entry into the Regular Army as a commissioned officer they would be afforded the same benefits that are granted to graduates of West Point and Annapolis.

Col. Adcock also announced that 40 additional seniors have been promoted to cadet oficer ranks. All have completed six weeks of ROTC summer camp at Fort Devens during the past summer.

Telfer has been designated as the Regimental Cadet Colonel of the corps, largest in the history of the College. Hugh Marlow, Reilly and Sykes have been named Cadet Lt. Colonels, with Marlow and Reilly commanding battalions and Sykes as Executive Officer of the Regiment.

Cadet Majors for the regimental and battalion staffs will be William Badger, John Faulhaber, and Townsend Hoen, Cadet Captains Barker and Kendall Farrar are also on the battalion staff.

Commanding the cadet companies with rank of Cadet Captain will be Robert Hutchins, Lewandoski, Read and James Wagner. Executive officers for the cadet companies are Cadet First Lieutenants Robert Burington, Robert Campbell, Barclay Johnson and Wyman Rolph.

Platoon leaders and assistant platoon leaders will be Cadet 2nd Lieutenants Peter Askew, Gordon Blackburn, Richard Booth, Richard Brassington, William Breed, Richard Brengel, William Burgess, David Corkran, Peter Decker, Richard Deming, John Ebbels, Albert Hayes, Harry Johnson, Francis Jones, Charles Palmer, John Middleton, Robert Ross, Briggs Spach, David Stivers, David Tuttle, Anthony Vallez, John Van Vranken, James Walling, Peter Webber, Richard Wiemer and Ronald Wiesner.
